

Song Summery

When I am dreaming  
It seems as though you're here  
This lets me know your ok

When you are far away  
You still let me know your ok

Near or Far  
Any where we are  
I believe love still happens

When you are with me  
Our bond grows stronger  
And our love will never end

Love can come into our loves on time  
And last until we die

True love was what we had  
a true love to remember

Near or For  
Any where we are  
I believe love still happens

You have left but know you're here again  
And our love will never end

When you are here I have nothing to be afraid of  
We will be in love forever  
Your safest here with me

Our love will go on forever

## Song Analysis

The song that I chose to do is called "My heart will go on," from the movie Titanic. What this song is saying about love is that even when people that are in love are far apart they can still tell that the other person is doing fine. This song is also saying that when people that are in love are together it seems that you can go anywhere.

I would have to say that I do agree with what this song is saying. Being my age I don't know what this feels like, but I believe that if you are in love anything can happen. As a teenager I have never felt the strong bond of love before but someday I would like to be able to.

This is a very good song from the movie Titanic. This song has no definite rhyme scheme even though the words go so well together. The pattern that the song goes through is that it has two verses and then a chorus. This is one of the best theme songs that I have ever heard. This song well describes what the Titanic is about, and that is love.
